DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-15, drawn to a method for providing access based on user profiles by creating user profile, electronic profile for data, establishing rule and method for accessing, classified in class 707, subclass 2.
 - II. Claims 16, drawn to a method of generating a database based on predetermined rules and criteria, classified in class 707, subclass 102.
 - III. Claims 17-20, drawn to a network system with a client system and a server system, which manages registration process, authorization process and maintenance process, classified in class 709, subclass 223.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I-III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. For example, group I is drawn to a method for providing access based on user profiles by creating user profile, electronic profile for data, establishing rule and method for accessing. Group II is drawn to a method of generating a database based on predetermined rules and criteria. Group III is drawn to a network system with

a client system and a server system, which manages registration process, authorization process and maintenance process. See MPEP 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Applicants are advised that the reply to this requirement to be completed must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicants is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CR 1.48(b) and by the fee required under 37 CFR 1.17(i).
